Statewide Need (for 157 of 300 applicants with "known" est. costs) **			\$853,663,565
Notes:			
<p>* This list includes projects identified as potentially eligible for the Small Community Wastewater Grant (SCWG) Program, as of June 28, 2010. Prior to updating the SCWG Program Competitive Project List (CPL), State Water Resources Control Board staff will mail an application for the SCWG Program CPL to all potential applicants identified. Only eligible applicant types (i.e., city, town, county, district, Indian tribe, or other public body) meeting the population and Median Household Income (MHI) criteria, and all other eligibility criteria for the SCWG Program, will be considered for funding. If United States Census data representative of the service area are not available, an income survey must be conducted to evaluate SCWG Program eligibility. Inclusion on this preliminary list does not guarantee funding or inclusion on the updated SCWG Program CPL.</p>			
<p>** Since the project costs for many of the communities listed above are unknown, this is considered a conservatively low number. State Water Resources Control Board staff will update this number upon receipt and review of applications for the SCWG Program.</p>
